FOLLOWING IN THE FOOTSTEPS OF ANCIENT PEOPLES

The Aleutian Islands and the North Pacific Ocean have served as a unique land and water “highway” for ages and are a remnant of the 1000-mile-wide Bering Land Bridge that enabled human migration to the Americas from Asia approximately 30,000 years ago. Waves of Paleoindian tribes from northern Japan and eastern Russia crossed the Bering Sea to Alaska and Canada’s northern territories, where they settled, intermingled and flourished. These clans expanded, moved south and spread throughout the Western Hemisphere; the lineage of the Native American nations can be traced back to these prehistoric explorers. The subtle markings of this ancestral heritage are evident today in the artwork, tools and methods of subsistence living that enabled these people to dwell in such remote wilds. Today, along the beautiful windswept islands and coastlines, one can still see the remains of native camps and artwork displaying the skill and pride of one of the world’s oldest cultures.

Anchorage/Seward, Alaska, U.S.

Enjoy a scenic transfer from Anchorage to Seward by rail car offering expansive views of magnificent Turnagain Arm and the Kenai Peninsula's towering snowcapped peaks and glacier-fed waterfalls. Watch for pods of orca or beluga whales feeding in the coastal waters and Dall sheep grazing along the steep cliffs bordering the train tracks.

Homer

Charming, colorful Homer sits amid lofty snowcapped mountains and blue glaciers on beautiful Kachemak Bay, a sheltered arm of lower Cook Inlet. Archaeologists have identified that inhabitants have cooked mussels and clams on these beaches for thousands of years, beginning with the indigenous Inuit and Tanaina. In the 1800s, homesteaders and coal miners comprised the area's population, but today, Homer is known as the "halibut fishing capital of the world," and is home to an eclectic mix of artists, fisherman and outdoor enthusiasts drawn by a wilderness setting adjacent to the clear-water bay and the slower pace of life.

Puffins, noted for their distinctively colorful bills, nest throughout the Aleutian Islands.

Kodiak

Twenty thousand years ago, massive glaciers covered most of the Kodiak Archipelago; their retreat created scenic peaks, fjord-like bays and wide U-shaped valleys ideally suited for abundant land and marine life to thrive. These natural resources attracted the Alutiiq, Kodiak's first inhabitants, who

practiced their subsistence lifestyle here as far back as the fourth millennium B.C. Russian fur trappers came to Kodiak in pursuit of sea otter pelts in the 18th century. Following the United States' purchase of Alaska a century later, Kodiak's economy shifted to whaling and salmon fishing, and today, its salmon- and cod-rich waters make it one of the busiest fishing ports in the country.

Explore the island's historic landmarks highlighting Native American and Russian legacies and experience a wildness that is matched in few other places on Earth.

Dutch Harbor

Dutch Harbor has a diverse history where culture and commerce have coexisted since the mid-1700s. Located at the confluence of the North Pacific and the Bering Sea, it is the only natural deepwater port in the Aleutian Islands and leads our nation in both volume and value of seafood caught with more than 800 million pounds processed annually for export.

Here, the Museum of the Aleutians contains native artifacts from these islands, which indigenous Aleut people have continuously inhabited for close to 9000 years, while military ruins testify to the area's strategic value during World War II.

Transpacific Crossing

Cruising between port calls in Dutch Harbor and the Kamchatka Peninsula, be on deck to look for marine wildlife such as orca and humpback whales, harbor seals, sea otters and one of the most dense populations of sea birds on Earth. Enjoy the ship's Six-Star amenities—onboard lectures, live entertainment, Relais & Châteaux dining, bridge tournaments, complimentary fitness classes, a casino, onboard spa treatments and stargazing.

Or, simply wrap up in a blanket and relax on deck with a complimentary beverage of your choice while contemplating a panoramic view of the Pacific horizon.

Petropavlovsk-Kamchatka, Russia
Kamchatka, “the land of fire and ice,” is a designated UNESCO World Heritage site. The region played a strategic role in the defense of Russian territory and was closed off to the world for decades until after the collapse of the Soviet Union in 1991, resulting in the preservation of its vast, unique and pristine wilderness, which is dotted with more than 300 volcanoes and inhabited by the world's largest brown bear population; almost one third of the planet's Pacific salmon population; and the powerful Steller's sea eagle, native only to this part of the globe.

Petropavlovsk, at the edge of Avacha Bay, is one of Russia's oldest towns in the Far East and is one of the world's most beautiful settings

surrounded by wilderness sanctuaries and snowcapped mountains. In 1740, the explorer Vitus Bering reached Avacha Bay and from here embarked on his voyage, which led to the discovery of the Aleutian Islands.

Kushiro, Japan

The beautiful coastal port of Kushiro, located in the southeastern part of Hokkaido and facing the Pacific Ocean, is known as “the town of mist” and has been a base for deep-sea fishing for over a century. The thriving Washo fish market sells fresh seafood such as saury, hairy crab, salmon, shishamo (a kind of smelt) and scallops. Nearby, the largest wetland in Japan, Kushiro Marshland, is renowned for its unique ecosystem, which can be observed directly from a wooden walkway. It is home to about 600 plant species and offers habitats for migratory birds and the enormous Japanese crane, a traditional symbol of longevity and good fortune.

Hakodate

Located on the southern shores of the largely untamed isle of Hokkaido, Hakodate opened as an international port in 1859. The city retains the ambience of a bygone era with old-fashioned streetcars running through the historic Motomachi district, which is laden with turn-of-the-century American and European architecture. Hakodate's highlights include a Russian Orthodox church built in the Byzantine style; an antebellum mansion which houses the city's public hall; and Asa Ichi, a fish and vegetable market brimming with local Japanese color.

Tokyo, Japan

Once a small fishing village dating back to 3000 B.C., Japan's capital today is the world's most populous metropolis. At the heart of thriving business districts, you will find the inherent cultural core of time-honored traditions and compelling history, where intricate Shinto shrines and neighborhood public baths co-exist with the latest architectural achievements and the wellspring of Japanese pop culture.

Blanket tosses once allowed hunters to scan the horizon in search of whales, seals and caribou and more recently have served as a ceremonial end to the hunting season.
