Dear Carolina Alumni and Friends:

Few experiences can match one of the world’s most dramatic voyages, a cruise from the Pacific Ocean to the Atlantic through one of the greatest man-made wonders of the world, the ingenious Panama Canal. Having celebrated its centennial anniversary just two years ago, this marvel of engineering and 50-mile passage through the narrow isthmus of Panama continues to astonish even today’s most veteran traveler. During a specially arranged daylight transit, experience firsthand the mighty locks that raise and lower ocean-going vessels 85 feet using no other power than the force of gravity, accomplishing in mere hours what would have taken a three-week circumnavigation of South America in years gone by.

Join fellow Tar Heels and friends for this voyage of a lifetime featuring a passage through the historic Panama Canal, and to the unspoiled rainforests of Costa Rica and Panama during the best time of year. On this comprehensive itinerary, visit two UNESCO World Heritage sites along with Panama’s ancient San Blas Islands, where the Guna Indians live much as they did centuries ago. Tour one of acclaimed architect Frank Gehry’s newest designs, Panama City’s Biodiversity Museum. Experience Panama and Costa Rica’s world-renowned and protected national parks—rainforests, islands and archipelagos that foster one of the most pristine ecosystems on the planet.

This spectacular offering features the privately chartered, all-Suite, Five-Star M.V. STAR BREEZE, just relaunched by an award-winning cruise line after an expansive, $8.5 million refurbishment. This sophisticated small ship features only 106 Suites, six with a private furnished veranda and 36 with private French-style balcony—ideal for your own private viewing while enjoying a daylight passage through the Panama Canal. Dock in small ports of call inaccessible to larger vessels and enjoy the advantages of Five-Star small-ship cruising—casually elegant ocean-view accommodations, an exclusive itinerary carefully crafted with daily excursions led by experienced onboard naturalists and no waiting in long lines.

This is an extraordinary opportunity and an excellent value. We encourage you to book now while space is available.

Yours at Carolina,

Called the “coast of riches” by the Spanish conquistadors who discovered it in 1502, Costa Rica offers visitors incredibly beautiful, ecologically diverse and fascinating cultural experiences. More than 25% of the country is a national park, wildlife refuge or protected rainforest, earning Costa Rica the distinction of the greenest country in the world and the leading destination for eco-tourism. Explore lush rainforests, walk along exquisite beaches and see a stunning array of wildlife, where rare and endemic species flourish, including howler monkeys, colorful tree frogs and Costa Rica’s 600 species of non-migratory birds. Costa Rica’s national motto is “Pura vida!” which translates literally as “pure life” but is better expressed by the optimistic, carefree spirit and the smiling faces of the ticos (Costa Rican natives) who welcome you to this spectacular landscape.

The horticultural diversity of Costa Rica, the “Garden of the Americas,” is evident in the parks of this vibrant capital city. San José is also an interesting mix of architectural styles, including Spanish Colonial, Moorish and Modernist. Its National Theater is a regal Baroque edifice modeled on Milan’s La Scala. The National Museum’s exhibits feature impressive pre-Columbian Central American artifacts.

**Curú National Wildlife Refuge**
Unlike traditional nature reserves, Curú Wildlife Refuge is a unique blend of sustainable agriculture, forest management and wildlife protection, encompassing five distinctive untouched habitats making it the ideal place to see the intricacies of co-dependent ecosystems. Enjoy a guided walk in the morning, the best time of day to observe an abundance of wildlife including pumas, anteaters, ocelots, otters and more than 230 species of birds.

**Manuel Antonio National Park**
Experience an unparalleled diversity of wildlife in this lush tropical paradise, a captivating combination of rainforest, beaches and coral reefs, home to more than 100 species.
of mammals, almost 200 species of birds and various reptiles and amphibians. In this “Living Eden,” expert naturalists will help you spot colorful toucans, screeching howler monkeys, camouflaged iguanas, squirrel monkeys and rare and endangered species such as the scarlet macaw and quetzal, all of which are protected by law in this natural haven.

**Golfo Dulce**
The secluded natural wonderland of Golfo Dulce, bordering the Piedras Blancas National Park, was declared “one of the most biologically intense places on earth.” Explore flora and fauna firsthand on the grounds of the Saladero Eco Lodge, an exclusive, pristine private property accessible only by boat and encompassing nearly 500 acres of primary old-growth rainforest, tropical gardens and beach, offering spectacular viewing of Costa Rica’s rich wildlife, including scarlet macaws and the endangered spider monkey. In nearby Casa Orquídeas, a stunning, maze-like botanical garden of over 100 species of orchids, bromeliads, heliconias and edible plants, look for colorful toucans, scarlet macaws and jewel-hued hummingbirds.

**Coiba National Park, Panama**
Designated a UNESCO World Heritage site, Coiba National Park and its Special Zone of Marine Protection has emerged as a rich laboratory for studying coral, mammals and plants. In addition to 69 species of fish, humpback, orca, sperm and Cuvier’s beaked whales are known to migrate through the marine park’s perimeter.

Explore Isla Coiba, the largest island in Central America. Once an isolated political prison, Isla Coiba today is a host of terrestrial wonders—untouched rainforest, rugged headlands, pristine white-sand beaches and mangrove thickets—the perfect environment for the evolution of new and endemic subspecies and for the preservation and protection of endangered species. Enjoy opportunities to snorkel or swim in the turquoise waters of the Gulf of Chiriquí and encounter the wildlife during a guided nature walk on this tranquil and pristine, lesser-traveled paradise.

**Panama City**
Central America’s most attractive capital city was founded in 1519 by Spanish explorers and rebuilt in the late 17th century. In the UNESCO World Heritage site “old quarter” known as...
Casco Antiguo, discover a charming neighborhood with cobblestone streets, a stunning 16th-century cathedral and many historic architectural edifices that remain intact.

Adjacent to the Panama Canal, the Miraflores Locks Visitor Center provides an opportunity to see how the locks operate. Nearby, the new Biodiversity Museum, designed by architect Frank Gehry of Guggenheim fame, showcases the ecological significance of Panama’s exotic flora and fauna.

San Blas Islands
Located on the Caribbean side of Panama, the sun-drenched San Blas Islands are an extraordinary testament to Panama’s commitment to the indigenous Guna Indians, also known as the Kuna Indians, and their centuries-old language, customs and culture. Villagers live in typical thatched roof huts, barter or trade in fish and agricultural products and paddle dugout canoes, their main mode of transportation. Guna women continue to hand stitch traditional colorful molas (reverse appliqué panels) and wear winis, long strings of tiny beads wrapped around their forearms and legs in striking geometric patterns.

Costa Rica’s Cloud Forests and Volcanoes Pre-Program Option
A medley of Costa Rica’s diverse biospheres, this spectacular opportunity features the mysterious Los Angeles Cloud Forest Private Biological Reserve, an enlightening exploration of the richly unique layers of the Arenal Volcano rainforest along suspended and fixed bridges, a dip in soothing geothermal springs nestled among powerful volcanoes and historic San José, with a taste of its rich culture—coffee and chocolate. Accommodations are for two nights in the ideally located HOTEL ROYAL CORIN and one night in the hacienda-style COSTA RICA MARRIOTT HOTEL SAN JOSÉ.

Dynamic Panama—
The Renaissance of a City
Post-Program Option
The perfect complement to Panama’s man-made wonder and “the crossroads of the Americas” is an exploration of old and new Panama. Visit Panama Viejo, the remains of the 16th-century Spanish town and a UNESCO World Heritage site, enjoy an architectural tour featuring Panama City and cruise on the Chagres River through the rainforest to learn more about Panama’s indigenous people. Accommodations for two nights are in the ideally located, deluxe BRISTOL PANAMA HOTEL.

Costa Rica’s imposing Arenal Volcano entered into a resting phase in 2010 and is now surrounded by lush rainforest.

The 580-foot-long S.S. Kroonland was the largest passenger ship of its time to transit the Panama Canal in 1915.

The Panama Canal
Marvel of Human Engineering
More than a Century of Passages

During a specially arranged daylight passage, experience firsthand the “greatest liberty ever taken with nature,” which cuts through the Great Continental Divide, spans 50 miles and took 33 years to complete at a cost of $400 million. This historic engineering feat changed the world, opening up new channels of international trade and allowing ships to travel between the Atlantic and Pacific Oceans in a fraction of the time it took to circumnavigate South America.

After France’s failed attempt to build a sea-level canal here in the 19th century and following the U.S. involvement in Panama’s independence, the project was turned over to the U.S. in 1903 and construction began during the presidency of Theodore Roosevelt. Among the 100,000 workers involved in the construction was French Post-Impressionist artist Paul Gauguin. When completed in 1914, the Panama Canal was considered one of the seven wonders of the modern world. Now, more than a century later, the Panama Canal is undergoing a $5.25 billion expansion, adding a wider third lane that can accommodate more than twice the cargo of the current lanes, maintaining its status as the “gateway to the world.”

Tens of thousands of workers labored and sacrificed to complete the largest engineering endeavor of the early 20th century.
