World Explorer

Accommodating just 172 guests, the World Explorer provides the ultimate in comfort and adventure in Antarctica.

The ship design features maneuverability, lending to spontaneous discoveries of polar wildlife, and boasts an Ice Class 1B designation, making her an ideal vessel for small-ship expedition cruising. With two state-of-the-art Rolls Royce hybrid-diesel electric engines, she is built to significantly reduce environmental impact on the Polar Regions. And an on board industry-leading system converts waste into energy at the site that it’s generated.

All staterooms are well-appointed and feature exceptional space, amenities, and a view of the ocean from either a walk-out or French balcony.

Her stylish public areas provide a convivial atmosphere for socializing and relaxation. On the observation deck, admire the surrounding icebergs and spot for whales while relaxing in the heated pool.
